Nevada City Nugget

COVERS RICHEST GOLD AREA IN CALIFORNIA

This paper gives you complete coverage of all local happenings. If you want to read about your friends, your neighbors, read The Nugget.

Vol. 16, No. 49. The County Seat Paper NEVADA CIT Y, CALIFORNIA The Gold Center THURSDAY, JUNE 18, 1942.

Thinking Out Loud

By H. M. L.

How goes the battle on the home front, in Nevada County for instance? Not badly, if you ask any citizen who keeps informed of the extra-time war activities of his neighbors. The sheriff, the district attorney, and the captain of the highway patrol have the county well organized against the day, if it should come, when citizens must do their part in home defense. The chief of police, the air raid warden, and the doctors and nurses have their organizations for taking charge of the injured in event of an enemy onslaught.

At present the probability of air raids seems slight, though our proximity to Camp Beale does increase the chances of disaster. A big bomber requires fifteen to twenty miles to turn in, and sometimes, as they make the turn, having missed their intended target, they lay their eggs any old place where they may hatch into destruction. So bombing even here in Nevada City is a possibility. In event of evacuations from coastal areas plans have been perfected for doing our part. In fact there has been a demand from residents of bay and Los Angeles areas for good houses to rent. Family heads, in a few instances, are moving their wives and children to Nevada City and Grass Valley, while they remain at their posts. A single air raid on any California coastal area would undoubtedly result in a great influx of population in all the mountain counties.

Sheriff Tobiassen has organized defense units in Nevada City, Grass Valley and Truckee, ready at a moment's notice to answer "Here" in any emergency, whether air raid damage, traffic stoppages, disaster to bridges, dams, power houses or highways or sabotage of any kind. His men are stationed throughout the county and are on the alert. Plane reporting stations are located at important points throuh the county and a large number of volunteers are keeping tabs on all planes that fly within their ken. Among the watchers is numbered Supervisor Cary Arbogast, Guerdon Ellis, Forest Supervisor is drilling his entire staff and enrolling many others in plans for fire prevention and fire fighting.

Much has been done in public education in the right thing to do in event of the several catastrophies that may happen in war time. We doubt if there is anyone in the county who does not know now that the way to extinguish an incendiary bomb is to cover it with sand or earth, and, if these are not handy, to give it a fine spray of water. To pour water upon one of these bombs spreads the flames. The great majority know what to do in a black-out. In case of poison gas we have learned the best thing to do is to go indoors and upstairs, closing all doors and windows, and staying there until the gas is gone. Besides these measures to cope with specific dangers, are those who give aid to injured. Hundreds of Nevada County women are taking courses in first aid.

Nevada City's air raid warden, A. C. Bates has organized a fine corps of assistants and has drilled them thoroughly in their duties. The work of organization, in brief, is fairly complete. What may be needed now is practice, in which the hundreds of volunteers can do their stuff, and the public may learn to cooperate easily with those whose duty it is to protect and aid all citizens during an emergency.

One thing has been suggested by Secretary H. E. Sofge of the Chamber of Commerce which seems so sensible that it should be stressed. Instead of the usual grand Fourth of July celebration, in which there is always a preliminary scurrying to and fro for money to defray expenses, let this Fourth of July be celebrated in one of the old-time ways: a great big community picnic in Pioneers park, with every family in a radius of five miles bringing a basket lunch. Neighbors and friends gathering around fried chicken, dill pickles and apple pie, for a great patriotic reunion. A good song leader and a good speaker after lunch, No parade,, no floats, no fire-works, no expenditures of money that should go for war bonds or stamps, or to the Red Cross. The Fourth falls on Saturday, a splendid day for a picnic and reunion. If any reader of this column thinks this is a good thought le. him phone Secretary Sofge and tell him so.

JUNE - MINING - EDITION

Nevada County Mines Continue To Lose Men To Defense Industries

Defense industries continue to call Nevada County miners and as a result employment in gold mining in this county is the lowest it has been in many years.

A survey by The Nugget shows that employment is but half of what it was at the time the war started.

The Idaho-Maryland Mines Corporation and Empire-Star Mines, Ltd., man total hovers around the 500 figure. Six months ago there were nearly 1,000 men employed by each of the two largest mining corporations in the county.

Employment at the Lava Cap Mining properties remained stable, principally due to the fact the company now enjoys a priority rating as a defense industry through the mining of necessary materials for the Selby Smelter.

No new enterprises started in the county during the past month.

The employment figures at the various operating mines in the county are as follows:

	Men	Payroll
Empire-Star Mines—		
Empire		
North Star	Estimated	
Pennsylania	500	
Zeibright	Total	
Idaho-Maryland Mines—		
Idaho-Maryland		
New Brunswick		
Syndicate	438	65,700
Lava Cap Mines—		
Central	141	21,150
Banner	89	13,350
Others—		
Spring Hill	18	2,700
Anchoe Erie	12	1,800
Spanish	15	2,250
Coan	2	300
Placer Mines—		
Innis	17	2,550
Omega	38	5,700
Relief Hill	12	1,800
TOTALS	1,282	$189,300

LAVA CAP MILLS APPROXIMATELY 300 TONS OF ORE DAILY

Approximately 300 tons of ore per day is being milled at the Lava Cap Mining Corporation mill at the Central Mine of the Lava Cap group.

Formerly 400 tons per day was handled. The decrease is due to the inability to obtain miners. The 8 cent per hour increase in wages at the Lava Cap properties, effective June 15th, is expected to aid the Lava Cap in securing men.

The Lava Cap produces strategic material for the war effort and employees of the mining firm are doing as much for their country in the war by remaining at the mine as they would be if they were employed in shipyards or possibly in military service.

The Lava Cap corporation now employs 235 men, compared to a peak of 350 men. General Manager and Mrs. Otto Schiffner returned to their home in Nevada City last week after a ten day business trip in New York and other eastern cities.

Snipers Find Plenty Of Gold In Downieville Area

The stream beds in the vicinity of Downieville have supplied considerable gold to snipers over a long period of time.

Joseph L. Reynolds, Downieville store manager and gold buyer, reports that in the eight years between 1934 and 1942 he bought $109,025.17 worth of gold from Downieville district miners.

This sum, amounting to an average of more than $1,100 a month, was purchased in amounts ranging from twenty five cents to several hundred dollars. Reynolds is one of three Downivelle gold buyers.

Erroll McBoyle Returns From Washington, D. C.

Erroll MacBoyle, president of the state mining bord and executive of the Idaho-Maryland Mines Corporation, returned to Nevada County last week after spending several weeks in Washington, D. C., in the interest of gold and strategic metal mining in California.

MacBoyle is credited by the Tri County Chrome Association with inducing the government to establish a chrome and manganese stockpile in Placer County.

FOURTH GROUP TO MEET AGAIN TOMORROW NITE

Another meeting of Nevada City civic and fraternal leaders will be held tomorrow night at the Chamber of Commerce here to discuss plans for the Fourth of July celebration.

A meeting held Tuesday night was attended by a large group and plans were started for the Independence Day fete.

Committee chairmen will be as follows:

C. J. Tobiassen, parade committee; Judge George L. Jones, literary committee, John O'Neill, publicity committee, William James, sports committee, Miles D. Coughlin, music committee, Mrs. Paul Kemper, finance committee, E. J. Kilroy, concessions and entertainment and Max Solaro, decoration.

MEXICAN LABOR MAY BE USED FOR MINES

Bruce McDonald, chief of the California bureau of war minerals production reported an appeal may be made for importation of Mexican labor to work strategic mineral mines and gold properties.

McDonald and other members of the board declared mine owners are having trouble getting sufficient labor and indicated they believed importation of workers for mines as important as importing Mexicans for farm labor.

MURCHIE MINE MACHINERY USED AT GRAY EAGLE

Installation of a concentrating plant for treatment of 600 tons of copper ore daily is proceeding rapidly at the Gray Eagle Mine near Happy Camp, Siskiyou County, where most of the approximately 200 employees formerly worked at the Murchie Mine near Nevada City.

The old reduction unit has been dismantled, workings reconditioned and powerful mining machinery installed, including units formerly used at the Murchie.

Construction of a twenty three mile power line has been completed. The company is preparing to erect a long aerial tramway over the mountains which will eliminate a nineteen mile haul.

Development of new ground has started from the main levels of the property, credited with containing 1,400,000 tons of ore averaging six per cent copper, and carrying some gold. R. J. Hendricks is general manager and Arthur Swanson, former superintendent of the Zeibright Mine, superintendent.

Sugar Ration Head Clarifies Regulations For Institutions

Local ration boards continue to receive inquiries from churches, lodges, and clubs as to how they may secure sugar for banquets.

To clarify these inquiries the ration administrator of Nevada County J. K. Osborne, quotes the following regulation:

"Such organizations may not register as institutional users unless they maintain an establishment for the regular preparation and service of meals. In order to qualify as such an organization, it must serve at least four meals each week. Sugar for meals service of those organizations which cannot qualify as an institutional user under the above requirements may be obtained through contributions by consumers."

MORE THAN 60,000 TONS OF BARYTES GOAL AT SPANISH

More barytes, or barium sulphate, as it is commonly known, will be mined this year at the Spanish Mine, near here than was produced last year, when 60,000 tons were contracted for.

The barytes is hauled four miles to the top of the Washington Grade and there it is picked up by huge trucks with trailers and hauled to a reduction plant in the Sacramento Valley.

Two small trucks, hauling about four tons each, make nine round trips daily between the mine and the bins at the top of the grade. The larger trucks which haul the barytes to the reduction plant carry twenty tons.

The baryte ore from the Spanish Mine, which is owned by the Bradley Mining Company, is said to be 96 per cent pure. It is used principally in paint as a substitute for lead. It is also used in the making of putty or pottery, in the manufacture of calendered paper, in window blinds and is used extensively in sealing off oil wells far beneath the surface. The hydrate is used in the refining of sugar where it takes the place of lime and the element barium is used in making the green flame in fireworks.

Barytes is heavy, weighing 280 pounds to the cubic foot, or about seven cubic feet to the ton. Quartz weighs 166 pounds to the foot or a little over twelve cubic feet to the ton.

Work at the Spanish Mine, which for years was worked solely for its gold content, is carried out on a three shift basis. The ore body is from nine to twelve feet in width and is in slate. It has been developed to a depth of several hundred feet on the steep north side of the South Yuba Canyon through open cut workings.

WARD SHELDON SEEKS DISTRICT ATTORNEY'S POST

With this issue of the Nugget, Ward Sheldon, Nevada City Attorney, announces his candidacy to the office of District Attorney of Nevada County.

Sheldin is well known to the voters of the county, having lived and maintained an active practice here for the past several years. In 1938 he was a candidate for this office. Although then a relative stranger to the district, he conducted his campaign through the primaries and to the general election where he was defeated by an extremely close vote, in one of the largest elections the county has seen.

The candidate offers himself for the position of District Attorney without apology and upon experience and qualifications acquired through more than twelve years of active law practice. He was born and raised in the great mining districts of the country and educated at the Universities of Michigan and California. After some years of practice at Oakland, he came to Nevada City with his family where they established their home and ever since have entered into the affairs of Nevada County.

In 1938 Sheldon took over the practice of W. E. Wright, who was then retiring, and he has since continued to maintain that office.

Mr. Sheldon states that he is entering the race at the urging of many friends who feel that he is best fitted to carry out the high responsibilities of the office. Having accepted the challenge, he promises to conduct an active campaign and, if elected, to faithfully carry out the duties of the position.

MAP OF OLD TRAIL DISPLAYED

Old timers will probably be interested in an old map which is on display in The Nugget window.

It was drawn from memory by the late John Ramm of Camptonville of the old Slate Range Trail from Marysville to Downieville.

PHILIPPINE MINE OWNER NOW LIME KILN RANCHER

Lionel D. Hargis, gold mine operator and former attorney, has purchased 600 acres in the Lime Kiln section, and yesterday 50 Herford beef cattle were delivered there as the beginning of a hered of 250 animals.

Mr. Hargis comes to Nevada County from the Philippines where he was engaged in gold mining. A number of his friends in the mining industry, some of them engineers, who lingered too long in the Philippines, he said he has learned, are now interned as prisoners of the Japs in Santa Tomas monastry and school in Manila. He states that all machines at the larger mines was smashed and the workings wrecked when the Japs arrived.

In addition to the ranch at Lime Kiln, Mr. Hargis has acquired a large summer range in the Sierra Valley for his cattle.

At Lime Kiln many improvements have been made in the last few months including a canal from the main ditch of the N. I. D. for irrigation purposes and a large planting of alfalfa and clover. Handsome new buildings have been erected, a big poultry plant constructed and stocked, and a number of milk cows and pure bred China-Poland hogs purchased.

WILLIAMSON'S GARAGE WILL CLOSE SUNDAYS UNTIL FURTHER NOTICE

Bill Williamson announced today he will close his garage and service station each Sunday until further notice. Williamson said there is little joy riding by motorists now and he believes there is no necessity for remaining open on Sundays for the convenience of his customers.

A Letter From Home

Hundreds of people have left Nevada City. There is no getting around that fact. Many are in the armed forces. Others are employed in defense industries in various other sections. About 200 are at Happy Camp, Siskiyou County. No matter where they may be, it is safe to say all of them still are wondering how things are going in Nevada City. As a special feature, starting today, The Nugget, in place of the Caught in the Riffles column, will print a letter each Thursday which may be sent to relatives or friends. The letter will sum up the news of the week and also add a few interesting incidents which former residents will be interested in. If you find it difficult to write letters, buy a Thursday issue of The Nugget for a nickel, insert the name of the one with whom you are corresponding and mail it. They will enjoy it.

Nevada City, June 18, 1942

Dear .....:

People here say "nothing ever happans in Nevada City." But I disagree with them and probably you will, too, after reading this letter. It's true this week in Nevada City didn't produce any murders, suicides or violent deaths; don't you think the Lava Cap Mining Corporation's announcement of an 8 cent per hour increase in wages effective June 15, is more important than any of those?

You would think the greatest event in the world occurred the way Ernie Young acted when his wife presented him with a baby girl. Ernie was in such a dither he passed out cigars indiscriminately. He gave one guy a cigar in Nevada City and a half hour later passed out another one to the same guy in Grass Valley!

Si Sofge didn't act that way when he became a grandfather last week (a son was born to the Richard Sofges). In fact, Si didn't pass out any cigars at all.

Speaking of Si, recently he had guests from the bay area at his home, including a little girl. This little girl became especially attracted to Si's pet chicken and was indignant when her mother wouldn't let her take the hen to bed with her!

You know the nation is now in the throes of a gigantic rubber drive but here is an interesting local sidelight. Stanley Bates and Tommy Berry remembered seeing four huge truck tires discarded on the banks of Deer Creek while on a fishing trip a year ago. So with the help of Councilman Al Bates, the tires, weighing 90 pounds each, were taken to a local service station and sold for a penny a pound. The memory of the two boys not only helped this country's rubber sitution but also put a jingle in their pockets. Well, that brings us back to Si Sofge again. Among rubber articles he gathered to sell were the galoshes his wife purchased a couple of months ago. She found out just in time.

Camp Fire Girls arrived at Lake Vera this week but they may as well as be in Siberia as far as Nevada City is concerned. From Colfax the girls were taken direct to the lake by narrow gauge bus. The girls haven't any means of reaching Nevada City unless they hoof the four miles. None seem inclined to do that. Four days have passed since the arrival of the first contingent and not one girl have we seen in Nevada City.

The local bakeries are getting more business as the result of the two day strike at Sacramento of several of the large baking concerns.

For two days outside bread trucks failed to arrive in Nevada City and it was up to Kopp's Bakery and Pease's Bakery to take care of the huge demand for the "staff of life."

Now that residents here know they can obtain just as good bread locally they are demanding the bread when they call at their grocer's. In fact one grocer that never handled local bread before the strike now sells Kopp's bread almost exclusively.

If given notice, the local bakeries could bake sufficient bread to satisfy local consumption.

Letters must end some time but we will be back again with you next week with more news of Nevada City.

Love, best wishes and all that sort of thing.

FUNERAL SERVICES TOMORROW FOR CATHERINE FLYNN

Funeral services will be held at 10 o'clock tomorrow morning at the Holmes Funeral Home for Mrs. Catherine R. Flynn, 75, wife of P. H. Flynn. Mrs. Flynn died yesterday at her home on Alexander Street.

The deceased was born at French Corral and since 1914 made her home in Nevada City with her husband.

Rosary services will be held at the Holmes Funeral Home tonight. Rev. Patrick O'Rilly will officiate at the funeral rites tomorrow. Burial will be in the Catholic Cemetery.

Besides her husband, Mrs. Flynn leaves four children, Mrs. Leona Lotz, of Nevada Cit, Henry C. Flynn of Grass Valley, Mrs. Loretta Wetzel of McCloud and Mrs. Genevieve Odgers of Mariposa.

NEVADA CITYANS COOPERATE IN RUBBER DRIVE

Nevada City is responding wholeheartedly to the rubber salvage drive which started this week and will continue for ten more days.

Country wide gasoline rationing hangs in the balance. If the American public can salvage enough rubber by June 30th, motorists may be able to avert gasoline rationing and get recapped tires.

President Roosevelt, who proposed the scrap rubber collection campaign, has authorized every service station in the United States to serve as a collection.

Filling stations are buying profered rubber at a cent per pound. Oil companies serving the stations will collect the pile and move them to central concentration points for sale to the FRC rubber reserve company at $25 a short ton.

Most of the activity in Nevada City is by boys who scour the city and outlying districts with a fine tooth comb for the precious rubber. Even one old tire, which may be found, nets a fine sum of money—in the eyes of a boy.

FUGITIVE CAPTURED IN GRASS VALLEY

Sheriff Carl J. Tobiassen stated today he is considering the filing of a charge of harboring a fugitive from justice against Mrs. John Stahl of Grass Valley for concealing her husband, 27, who escaped from the county hospital, where he was held prisoner under guard of Howard Burr.

Stahl was apprehended at the home of his mother in law in Grass Valley last night, 24 hours after leaving the hospital, where he was taken after he was stricken ill at the county jail.

Stahl is being held for Reno, Nevada, authorities on a charge of automobile theft.

CHROME MINERS TO MEET IN PLACERVILLE TOMORROW NIGHT

A meeting of the Tri County Chrome Association will be held in Placerville tomorrow night. Nevada City directors of the association, composed of chrome operators in Nevada, Placer and El Dorado Counties, plan to attend the meeting.

Returns From Carson City—

Mrs. Alfred Haddy returned this week from a several week visit with her sons, Russell and Richard Haddy and families in Carson City, Nev. Mr. and Mrs. Richard Haddy became the parents of a baby boy recently.

Nevada County Total Revenue $624,718

Total governmental receipts of Nevada County amounted to $624,718 for the year ending June 30, 1941, compared with $593,494 for the fiscal year 1940, study of the revenues of California counties, completed today by California Taxpayers association shows.

During 1941 the county collected $278,592 in general taxes and received $316,717 in subventions and grants the association found. In 1940 general taxes brought $278,207 into the county coffers and subventions totalled $287,303. Miscellaneous other receipts including licenses and permits, fines and penalties fees and commissions and other special revenues made up the remainder of the revenues of the county for each year.

Principal subventions received by counties are the federal and state aid for welfare and state subventions for county highways, together with the share of liquor taxes and licenses. All these subventions the association pointed out, come out of the pockets of the people in one tax or another.

City's Share In Auto License Fees Is $1,860

Apportionments of $1,860 in motor vehicle license fees to Nevada City and of $6,196.94 to Nevada County were announced today in Sacramento by the Department of Motor Vehicles.

These apportionments represent vehicle license fee collections for the period, July 1, 1941 to March 31, 1942. This tax, also known as the "in lieu" tax formerly was collected by cities and counties as a personal property tax.

The local apportionments were based on a population of 2445 for the city and of 20,000 for the county and were a portion of a grand total of $9,560,911.58 apportioned to all the cities and counties of California. The grand total is about $100,000 less than for the same period of 1941.

COUNTY NATIVE DIES

Walter S. Kirkwood, 75, died in Chico Sunday afternoon.

Kirkwood, a native of Nevada County and operated a ranch in the Bridgeport vicinity.

He leaves his wife, Mrs. Eva Kirkwood and a daughter. Funeral rites were held in Chico.

"WILD BLOOD"

CHICAGO — Recently a stalwart gentleman stomped into the Blood Donor Center of the Chicago Chapter of the American Red Cross. "I'm a third cousin of Buffalo Bill, and I've got wild blood in my veins," he said. "I want to give some of it to the armed forces." His wish was granted.

Soldiers of Production

America's "soldiers of production," men and women working in the plants of American industry, have their uniforms, too. Some uniforms worn by G-E workers on vital production jobs are shown below.

1. Not a gas mask, but a special nose mask to guard his breathing, is worn by this spray painter at his job in one of the General Electric plants.

2. Like a man from Mars, the "cold room" research man is a strange sight as he tests airplane instruments for high-altitude performance in a G-E laboratory.

3. Frankenstein? No, just another G-E worker. His job is sandblasting big turbine castings for Uncle Sam's ships at one of the General Electric plants.

4. The helmet he wears is to protect him from light! The rays from a welder's arc could cause blindness if he did not wear this strange headgear.

General Electric believes that its first duty as a good citizen is to be a good soldier.

Primary Election, August 25th

IN CASE OF GAS ATTACK, HERE IS WHAT TO DO

(By Dr. Ward L. Mould, Medical Gas Officer U. S. Office of Civilian Defense.)

YOU CAN PROTECT YOURSELF

This article will present a few simple rules by which injury by war gases may be prevented or modified. If mustard or lewisite are used, the most serious injuries will result from the liquid agent. Therefore, during a raid, remain inside, or go inside if you are out of doors.

Remember that war gases are heavier than air, and will cling to the ground. You can get away from the vapor by going to the upper floors of a building and by avoiding basements and other low places. Even after a raid, it is better to remain inside the upper floors of a building than to try to leave the gas area unless so directed. Your air raid warden will guide you to safety when it is safe for you to move.

BASIC RULES FOR SELF-AID IN A GAS ATTACK:

1. Self-aid is the best aid for the prevention of injuries due to war gases. War gases are usually not dangerous if you take steps immediately to remove them from the skin and eyes. Effective means to accomplish this are in the kitchen and the bathroom of every home.

2. If you are inside a building, remain there and go upstairs. Do not leave your house unless it is absolutely necessary. If you are outside and not able to get indoors, immediately walk—don't run—to get out of the gas area. Avoid puddles of liquid gas, basements, valleys and other low places.

3. If you have been exposed to a war gas—

a Breathe through cloths wet with baking soda solution.

b Get inside a building if possible, but first remove your outer clothing and leave it outside.

c Wash your hands first, and then your face, with laundry soap and water.

d After cleaning your hands, wash your eyes at once with a large amount of a solution of baking soda; one teaspoonful of baking soda in a glass of water.

e Take a bath, using plenty of laundry soap.

f Wash your eyes again with baking soda solution.

4. If splashes of liquid gas have gotten on you—

a Using small pieces of cloth, cleansing tissue or toilet paper, blot up as much of the liquid as you can, being careful not to spread it.

b. Daub the contaminated area with cloths wet with bleaching solutions containing sodium hypo-chlorinate, such as, Clorox, etc.

5. NEVER GET EXCITED. Lie down and cover yourself with a blanket. Medical aid is on the way. There is no immediate serious danger from exposure to any known war gas.

Army Signal Corps Wants Young Men

Sergeant Raymond C. Brockett, of the Army Recruiting Service has announced that young men 18 and 19 years of age may now be enlisted directly into the Signal Corps.

This is an excellent opportunity to learn a trade. The following trades can be learned in the Signal Corps. Radio Operator, Lineman, Electric Generator Maintenance, Radio Repairing, Telephone Switchboard Operator and Telephone Repairing.

VERNON STOLL ASKS REELECTION AS PROSECUTOR

Vernon Stoll, Nevada County's district attorney for the past eight years, equivalent to two terms of administration, during which the people twice voted their confidence and appreciation of his work and energy, has filed for reelection to the important county post at the county primary election, Tuesday, August 25th.

Stoll has prepared no detailed, chronological biography of his life and work, believing that his living among Nevada countyans, working with Nevada countyans and fraternizing with the citizens in civic, fraternal and service circles is his background for the friendship, acquaintanceship and the really "knowing" of the adults of the county and the younger population as well.

Few there are in the county who are unaware of his Red Bluff nativity, his graduation from the University of California and the Boalt School of Law; his coming to Grass Valley in the late twenties to engage in the general practice of law, which culminated in his election to the district attorneyship of the county first in 1934 and again in 1938.

Peculiarly enough, District Attorney Stoll's administration of the district attorney office with its factors of successful prosecution of criminal affairs; legal advisor for the county of Nevada and its multiple departments and agencies; preparation of the necessary legal forms and documents for the county has been high-lighted by such periods of economic change unrest and transition that he has attained a well rounded fund of experience which serve him particularly well for re-election.

Vernon Stoll's first term included the late years of the depression with the introduction of hundreds of new problems. Generally the new citizens were dependable, responsible Americans. Yet there were a few of the other type and during this period he prosecuted several important murder trials, the first in the county for a number of years.

Then again the "spending to recovery" program of the federal government meant many long hours of contacts, work and preparation in perfecting the forms and papers which permitted the hundreds of thousands of dollars of PWA contracts for the county of Nevada and the major school districts within the county.

Now another unusual and once-in-a-generation factor intrudes—war.

As the county's principal enforcement officer and titular legal head, it was natural that he would bend every effort for civilian protection. At the very outset, Stoll engaged in defense and protective planning and organizing. He has been named as Regional Coordinator by Attorney-General Earl Warren in charge of the civilian protection of the residents of Region 7, which includes Tuolumne, Calaveras, Amador, Placer, El Dorado, Nevada and Sierra counties.

He is chairman of the Nevada County Defense Council, presiding at all council sessions and personally taking the defense courses of instructions at recent FBI schools and United States Army civilian protection schools at Sacramento.

Stoll's work in civic affairs is constant and unceasing, particularly in the non-profit organization field. He directs the affairs of the 17th District Agricultural Association as president; serves as vice president of the Grass Valley Chamber of Commerce and is completing his fourth year as chairman of the Grass Valle Red Cross chapter.

In addition he assists in the work of service clubs of the community, and while no office-holder, is a regular attender and active participant in fraterial societies.

Stoll's dominating and all out purpose has been and will continue to be service for the best interests of Nevada county; to maintain Nevada county's reputation for honesty and integrity; improvement of social conditions by strengthening respect for the forces of law and order and administration of even justice without fear or favor.

Protection of rights and liberties of citizens in a war-torn and tense era, safety and preservation of homes, guarantees of freedom of democratic thought and action are element which he will support.

Church Notes

Catholic Church

Two masses will be celebrated Sunday at the St. Canice Catholic Church. The first mass will be at 8 a. m. and the second at 10:30 a. m. Father Patrick O'Reilly will officiate.

Trinity Episcopal Church

Sunday School at 9:45. All boys and girls present will receive a copy of the Sunday School picture taken at the bishop's last visit.

Morning prayer with sermon by Rev. Cedric Porter at 11. Music by Trinity choir under the direction of Mrs. Carl Libbey. Mrs. Fred Anderson, organist.

Christian Science Society

The Christian Science Society in Nevada City holds service at 114 Street every Sunday at 11 a. m. Sunday School at 9:45 a. m. A testimonial meeting is held the first Wednesday of each month at 8 p. m. The reading room at 117 Broad Street is oen every day except Sundays and holidays from 2 p. m. to 4 p. m.

"The Lord by wisdom hath founded the earth; by understanding hath he established the heavens." These words from Proverbs comprise the Golden Text to be used Sunday, June 21, in all Churches of Christ, Scientist, branches of The Mother Church, The First Church of Christ, Scientist, in Boston. The subject of the Lesson-Sermon will be "Is the Universe Including Man, Evolved by Atomic Force?"

Included among the Scriptural selections will be: "And God said, Let the earth bring forth grass, and herb yielding seed, and fruit tree yielding fruit after his kind, whose seed is in itself upon the earth; and is was so." (Gen, 1:11.)

The following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, will also be included: "The human mortal mind, by an inevitable perversion, makes all things start from the lowest instead of from the highest mortal thought. The reverse is the case with all the formations of the immortal divine Mind. They proceed from the divine source; and so, in tracing them, we constantly ascend in infinite being." (p. 189).

Visiting Son At Camp Roberts

Mrs. C. E. Bosworth has returned to Nevada City from Southern California, where she visited her son, Donald Bosworth. Don has left for South Carolina, where he will receive further training as a parachutist.

Picnic Enjoyed—

Mr. and Mrs. Ed Martine had as guests Sunday Mrs. Martine's sister, Miss Frances Pryor and Mr. and Mrs. H. Rugaard, all of Walnut Grove. The group enjoyed a picnic dinner and outing at White Cloud.

Nevada : : Theatre

THURSDAY AND FRIDAY

40,000 HORSEMEN A story of Australia's brilliant fighting men. A fine picture for young and old. The stars are Betty Briant and Grant Taylor.

SATURDAY

PARIS CALLING Randalph Scott and Elizabeth Bergner are co-starred in this picture. Also on the program will be a thrilling spy action picture, Secret Agent of Japan, with Preston Foster and Lynn Bari.

SUNDAY AND MONDAY

THE FLEET'S IN A host of top flight entertainers and nine top tunes swung out by one of the nation's best bands makes this picture one of the finest and most entertaining pictures of the year. The chief roles are played by Dorothy Lamour and William Holden.
